

Husk Zoom/Remember Zoom

We usually need to “zoom” or “enlarge” a scanned page, maybe a church record so see it more clearly. Then we go to the next page, and we have to increase the size again!

Set “Husk Zoom” or “Remember Zoom” to maintain the increased size. Here are the steps:

1. On a scanned record page, increase the page to the desired size.
2. At the top of the page on the right hand side are the choices needed:

3. Click on the “kebab” in the black background on the far right.
4. That changes to a vertical kebab. Below it is this chart. Click on the gear wheel/cog/sprocket circled in red. Select “Husk Zoom” (Remember Zoom).
